PROFILE

My interest and passion for web development began at an early age. I love front-end development, modern and responsive design, graphic manipulation, unique user experiences, and clean code. Give me an idea or .PSD and let me bring the design to life!

EDUCATION

General Assembly - Austin, TX
Full-Stack Web Dev Immersive

A 12-week, 60-70 hours a week coding bootcamp designed to teach students full-stack technologies including HTML, CSS, JavaScript, Ruby on Rails, SQL, the MEAN stack and others in a collaborative environment while applying best industry standards.

McMurry University - Abilene, TX

Bachelor of Science in the field of Information Technology with a Graphic Design minor
